Network Operation

1. Install and double click the Cam Finder shortcut on the desktop. When the Cam Finder is launched, you can search cameras by clicking on the "search" button on the top panel. The camera will be displayed on the Cam Finder.
2. Double click the camera on the Cam Finder, you will be prompted with a pop-up window asking for login information, type in "Admin" (default login name) and "1234" (default password). Then you can access the camera web user interface and are able to update multiple settings.
